Quickſilver, called mercury by the chymiſts, is a naturally flui mineral, and the heavieſt of all known bodies next to gold, and i the more heavy and fluid, as it is more pure; it is wholly volatil in the fire, and may be driven up in vapour by a degree of hea very little greater than that of boiling water: it is the leaſt tena cious of all bodies, and every ſmaller drop may be again divided b the lighteſt touch into a multitude of others. The ſpecifick gravit of pure mercury is to water as 14020 to 1000, and as it is th heavieſt of all fluids, it is alſo the coldeſt, and when heated th hotteſt: the ancients all eſteemed *quickſilver* a poiſon, nor was i brought into internal uſe till about two hundred and twenty yea ago, which was firſt occaſioned by the ſhepherds, who ventured t give it their ſheep to kill worms, and as they received no hurt b it, it was ſoon concluded, that men might take it ſafely: in tim the diggers in the mines, when they found it crude, ſwallowed i in vaſt quantities, in order to ſell it privately, when they ha voided it by ſtool: but the miners ſeldom follow their occupatio above three or four years, and the artificers, who have much dea ing in it, are generally ſeized with paralytick diſorders. *Hil*

S.

S Has in Engliſh the ſame hiſſing ſound as in other languages, and unhappily prevails in ſo many of our words that it produces in the ear of a foreigner a continued ſibillation.

In the beginning of words it has invariably its natural and genuine ſound: in the middle it is ſometimes uttered with a ſtronger appulſe of the tongue to the palate, like *z*, as *roſe*, *roſeate*, *roſy*, *oſier*, *noſel*, *reſident*, *buſy*, *buſineſs*. It ſometimes keeps its natural ſound; as *looſe*, *deſignation*; for which I know not whether any rules can be given.

In the end of monoſyllables it is ſometimes *s*, as in *this*; and ſometimes *z*, as in *as*, *has*; and generally where *es* ſtands in verbs for *eth*, as *gives*. It ſeems to be eſtabliſhed as a rule, that no noun ſingular ſhould end with *ſ* ſingle: therefore in words written with diphthongs, and naturally long, an *e* is nevertheleſs added at the end, as *gooſe*, *houſe*; and where the ſyllable is ſhort the *ſ* is doubled, and was once *ſſe*, as *aſs*, anciently *aſſe*; *wilderneſs*, anciently *wilderneſſe*; *diſtreſs*, anciently *diſtreſſe*.

SELF. *pronoun.* plur. *ſelves.* [*ſilba*, Gothick; ꞅẏlꝼ, ꞅẏlꝼa, Sax. *ſelf*, *ſelve*, Dutch.]

1. Its primary ſignification ſeems to be that of an adjective. Very; particular; this above others; ſometimes, one's own.

Which you did ſhoot the firſt. *Shakeſp. Merchant of Venice.*

At that *ſelf* moment enters Palamon
The gate of Venus. *Dryden.*

2. It is united both to the perſonal pronouns, and to the neutral pronoun *it*, and is always added when they are uſed reciprocally, or return upon themſelves: as, *I did not hurt* him, *he hurt* himſelf; *the people hiſs* me, *but I clap* myſelf; *thou loveſt* thyſelf, *though the world ſcorns* thee.

They caſt to build a city,

3. It is ſometimes uſed emphatically in the nominative caſe: as, *myſelf* will decide it; I *myſelf* will come; *himſelf* ſhall revenge it. This uſe of *ſelf*, thus compounded, without the pronoun perſonal, is chiefly poetical.

4. Compounded with *him*, a pronoun ſubſtantive, *ſelf* is in appearance an adjective: joined to *my*, *thy*, *our*, *your*, pronoun adjectives, it ſeems a ſubſtantive. Even when compounded with *him* it is at laſt found to be a ſubſtantive, by its variation in the plural, contrary to the nature of Engliſh adjectives, as *himſelf*, *themſelves.*

No more be mention'd then of violence
Againſt *ourſelves*, or wilful barrenneſs. *Milton.*

5. *Myſelf*, *himſelf*, *themſelves*, and the reſt, may, contrary to the analogy of *my*, *him*, *them*, be uſed as nominatives.

6. It often adds only emphaſis and force to the pronoun with which it is compounded: as, he did it *himſelf.*

And touch'd with miſeries *myſelf* have known,
I learn to pity woes ſo like my own. *Dryden.*

Since conſciouſneſs always accompanies thinking, and it is that that makes every one to be what he calls *ſelf*, and thereby diſtinguiſhes himſelf from all other thinking things; in this alone conſiſts perſonal indentity, *i. e.* the ſameneſs of a rational being. *Locke.*

It is by the conſciouſneſs it has of its preſent thoughts and actions, that it is *ſelf* to it *ſelf* now, and ſo will be the ſame *ſelf*, as far as the ſame conſciouſneſs can extend to actions paſt or to come. *Locke.*

The fondneſs we have for ſelf, and the relation which other things have to our *ſelves*, furniſhes another long rank of prejudice. *Watts.*
